UpTerra™
TECHNOLOGY BY NATURE

Indoor Cannabis Trial
The Pharm, Arizona

HIGHLIGHTS:

- Flower weight (grams) per plant + **13%** in both trials
- Biomass weight (grams) + **15%** and **37%** respectively
- Trial 2 increased 6.9% and 16.7% in potency and terpenes respectively
- UpTerra treated water was the only difference in both trials

TRIAL OVERVIEW:

- +200 plants per trial, same grower
- Trial 1 December 2021
- Trial 2 March 2022
- UpTerra treated water vs control

TREATED PLANT OBSERVATIONS:

- **Increases** in flower weight, trim and biomass weight in both trials
- **Increases** in stem width, potency and terpenes with treatments were also observed

	Trial 1			Trial 2		
MEASUREMENT (PER PLANT)	CONTROL (grams)	TREATMENT (grams)	% Increase	CONTROL (grams)	TREATMENT (grams)	% Increase
Flower	59	67	**13.6%**	56	64	**14.3%**
Trim	31	38	**22.6%**	103	153	**48.5%**
Biomass	90	106	**17.8%**	159	218	**37.1%**
Stem width	7.65	8.9	**16.3%**			
THC				16.09	17.2	**6.9%**
Terpenes				1.74	2.03	**16.7%**
	HARVESTED DECEMBER 2021 231 PLANTS FOR BOTH CONTEOL AND TREATMENT			*HARVESTED MARCH 2022 CONTROL 250 PLANTS/TREATMENT 230 PLANTS*
